MrGreen-TG2[®] Grass & Root Fortifier

“ I used this on my yard to help break up a heavy thatch. The added benefit was that it accelerated grass growth. This allowed me to cut down on fertilizer and to skip a year of thatching. ”
E.C.

MrGreen-TG2 Grass & Root Fortifier is an eco-friendly liquid alternative to chemical fertilizers that increases root growth and improves soil porosity and water retention. MrGreen also restricts weed growth by stimulating the growth of healthy grasses and can safely be used in conjunction with other fertilizer solutions.

MrGreen-TG2 Grass & Root Fortifier should be applied in the Spring/Summer and again in early Fall. MrGreen does not contain bacteria, enzymes, harsh chemicals or masking agents and as such is safe for humans animals and the environment.

FEATURES & BENEFITS

- Stimulates thicker grasses
- Chokes out weeds
- All natural, non-toxic, biodegradable
- Lowers soil surface tension
- Increases soil porosity
- 1 bottle treats up to 5,000 sq ft
- Satisfaction guaranteed

INSTRUCTIONS

Shake Well Before Use.

Application Rate: 1 oz/30 ml per 1 gal/4 L of water.

Total Lawn Treatment: To treat up to 11,000 sq. feet, pour entire bottle into garden sprayer and spray evenly over lawn at the Application Rate.

Small Areas: For trees, embankments, low spots and areas of heavy foot traffic use 8 oz/250 ml per 1,000 sq. feet and spray evenly at the application rate.
