Compost Accelerator & Odour Control

“Composting for years and tried powders and they would work but slowly. This works in 24 hours. Have a lot of garden waste now and needed something to help get pile working fast. Very easy to apply, mixing 4oz in 2gal of water and sprinkle water on pile. The next day you can feel the heat.”
C.B.

MrGreen Compost Accelerator is a liquid all natural organic micronutrient concentrate that rapidly eliminates odours, significantly increases the efficiency of the composting process and increases the quality of the top-soil produced. MrGreen does not use bacteria, enzymes, harsh chemicals or masking agents and as such is safe for humans, animals and the environment.

FEATURES & BENEFITS

- Eliminates odours
- Accelerates composting creating nutrient-rich soil
- All natural, non-toxic, biodegradable
- EcoLogo Certified
- Reduces odours which attract flies
- 1 bottle treats up to 4 cubic yards of compost
- Satisfaction guaranteed

INSTRUCTIONS

Shake Well Before Use.

To treat one cubic yard of waste, every 2 weeks mix 250 ml/1 cup of MrGreen Compost Accelerator with 4 L/1 Gallon water. Spray or pour evenly (i.e. watering can) onto composting material. Allow mixture to soak into composting material.
